

OPASCA takes next step to expand the business announcing the first European distribution partner

Mannheim, Germany, February 28, 2019

OPASCA GmbH, the leader in innovative safety and patient management solutions for radiotherapy in Germany, is pleased to announce the next step of its business expansion with the appointment of Tema Sinergie as an exclusive distributor in Italy. Together with Tema Sinergie, OPASCA will introduce workflow management and patient safety solutions to Italian public and private radiotherapy centres.

In recent years, which have been marked by strong growth, OPASCA has managed an extensive customer base in Germany from its headquarters in Mannheim. Supporting OPASCA's growth strategy in other countries requires strong partnerships with well-established distributors.

Tema Sinergie has more than 30 successful years of serving client needs in the field of radiotherapy in Italy and represents a large portfolio of innovative solutions from other manufacturers. Tema Sinergie is also one of the world leaders in the field of equipment for Nuclear Medicine.

Dr. Alexej Swerdlow, CEO of OPASCA, said: "We are very pleased that TEMA Sinergie will support us in implementing our European growth plan. They share our intrinsic customer focus and innovative spirit. We are looking forward to expanding our joint commitment with them."

"Patient satisfaction should be a fundamental target to reach for all clinical practices" said Andrea Peroni, Radiotherapy business director of Tema Sinergie. "Currently, from that specific perspective, radiotherapy can be further improved significantly, all over the world. We truly believe that the solutions provided by OPASCA are of great help, firstly for the patient. We can't wait to make such solutions adopted also in Italy."

About OPASCA
