

Patient desk

Digital filling of registration forms – for more efficiency in the admission process

Fill and sign all required documents electronically for a paperless admission process

With the OPASCA Patient desk, your patients can electronically fill out and sign all necessary forms prior. The interactive process is guided by simple and easy to understand questions. The legally binding text is also

available. In addition, clinic-specific queries, such as a patient password, can be entered in a structured manner. The completed documents are readily available in the system.

The Signature Pad ensures that signatures are legally secure. Embedded privacy precautions protect the personal data of your patients.

RFID SCANNER
retrieve personal questionnaires using patient pass

TOUCHSCREEN
split screen view for easier filling out – simple, easy to understand text and legally binding version

SIGNATURE PAD
for legally secure digital signatures
